Accraply Expands Products and Markets with Acquisition of Graham Engineering (Essex) Limited and Graham Spares and Service Limited

MINNEAPOLIS, Minn. — July 20, 2010 — Robin G. Leonard, President of Accraply, Inc., has announced the acquisition of Graham Engineering (Essex) Limited and Graham Spares and Service Limited of Brightlingsea, England. The acquired businesses specialize in the design and manufacture of high-performance labeling and shrink sleeve application solutions and aftermarket support.

The acquisition further strengthens Accraply's ongoing commitment to the shrink sleeve labeling industry and expands Accraply's global footprint in Europe. The addition of Graham within the family of Accraply, Trine and Stanford brands complements Accraply's position as a global provider of a complete range of labeling and shrink sleeve application and converting equipment and services. The new partnership also complements Graham's position in markets served with the added advantage of Accraply's multiple manufacturing, engineering and service centers in North America, which support the company's extensive sales and service networks worldwide.

Founded 27 years ago by Graham McKowen and Graham Parker, the company—widely known as Graham Labelling & Sleeving—has built a solid reputation for quality and innovation in the marketplace. The Graham range of standard and custom-configured labeling and sleeving systems are suitable for a wide variety of applications and industries.

“Graham design expertise and experience have resulted in the creation of many significant U.K. manufacturing firsts, making Graham a leader in the growing shrink sleeve labeling industry,” Mr. McKowen stated. “I am delighted to see the company now moving forward with Accraply and Barry-Wehmiller.”

“We look ahead to building an exciting future for our companies and our people,” added Graham Managing Director Tony Couling. “This agreement accelerates our commitment to product innovation and expands our market and product range for existing and future Graham customers”.

The Graham acquisition is the 47th for Barry-Wehmiller since 1987. In fiscal year 2010, a strategic combination of organic and acquisition growth is expected to grow Barry-Wehmiller's annual revenues to \$1.2 billion. Barry-Wehmiller now employs more than 5,400 team members serving the global marketplace in over 65 operations worldwide.

About Accraply

Comprised of the Accraply, Trine and Stanford brands, Accraply, Inc. unites some of the most trusted names in product decoration and material converting. Known for its cutting-edge technology and innovative custom-engineered designs, Accraply has been credited with many industry firsts and advances in application and converting technologies. Accraply, a division of Barry-Wehmiller Companies, Inc., is a leader in the design, manufacture and support of pressure-sensitive label application systems, Trine roll-fed label application systems, and Stanford converting and finishing equipment for the shrink sleeve label and flexible packaging markets.

ABOUT BARRY-WEHMILLER

Barry-Wehmiller Companies, Inc. is a diversified global supplier of engineering consulting and manufacturing technology solutions in packaging, corrugating, and paper converting across a broad spectrum of industries. Barry-Wehmiller's balanced approach to the market is made possible through nine interactive divisions: **Accraply, Inc.**, a leading manufacturer of automatic labeling and label converting and finishing systems; **Barry-Wehmiller Design Group, Inc.**, a premier supplier of manufacturing automation, facility design, and other engineering consulting services; **Barry-Wehmiller International Resources (BWIR)**, a global provider of business and technology solutions to the mid-market manufacturing domain; **FleetwoodGoldcoWyard, Inc.**, a leading producer and supplier of automated can end and product handling equipment, advanced conveyance technology, robotic technology, palletizers, depalletizers, and process equipment; **HayssenSandiacre**, a form/fill/seal technologies and services leader for more than 100 years; **MarquipWardUnited, Inc.**, a leading manufacturer of equipment for the corrugated and folded carton industries; **Paper Converting Machine Company (PCMC)**, providing high-performance converting machinery for the global tissue, nonwovens, package printing, and envelope manufacturing industries; **PneumaticScaleAngelus**, a global provider for filling, capping, can seaming, labeling, and centrifugation; and **Thiele Technologies, Inc.**, a leading producer of placing, feeding, bagging, cartoning, case packing, and palletizing equipment.
